## THAROS HORSE

Equinectar is a new digestive supplement revolutionising the way we feed our horses.

A natural product crammed full of enzymes, it works by breaking down what your horse eats to molecular level. Feed is digested correctly preventing undigested food passing into the hindgut, fermenting, and producing toxins and undesirable bacteria growth.

- Gets the best out of your horse's food
- Slows the passage of food through the digestive system
- Prevents harmful toxin build up and helps good bacteria flourish

Orders are being taken by Jo Aston 07968 316456 for a **contactless delivery throughout lockdown. A 20% discount is available to Warwickshire supporters whilst lockdown continues.**
